LEADERSHIP ACCOMPLISHMENTS:

May 2009 – Present **As Engineering and Applied Science Division Chair**

- 3 years in a row **Engineering and Technology at Caltech** was ranked #1 by the Times Higher Education World University Ranking (Thomson Reuters) for 2010-2011, 2011-2012, and 2012-2013.
- Presided over the structural re-organization of the Division of Engineering and Applied Science (EAS) at Caltech.
- Replaced the amorphous “degree option” structure with seven EAS departments and presided over their administrative restructuring.
- Introduced a system of multiple fundraising advisory councils, composed of Caltech alumni and Institute trustees, corresponding to each new department.
- Established the Center for Technology and Management Education (CTME) which provides executive training, courses and certificate programs to international companies and government agencies.
- Involved in the establishment and oversight of the Resnick Energy Sustainability Institute which aims to foster transformational advances in energy science and technology through research, education, and communication.
- Member of the Board of Directors for the Joint Center for Artificial Photosynthesis (JCAP) one of the nation’s DOE hubs with the mission to keep the United States at the forefront of solar-fuel research.
- Oversaw the fundraising and renovation of the Jorgensen Laboratory to serve as the new home for two of Caltech’s key energy and sustainability research efforts: the Resnick Institute and the Joint Center for Artificial Photosynthesis.
